Senior Projects

Step 1: Complete a proposal application for either a <u>Senior Acting Project</u>, a <u>Senior Design Project</u>, <u>Senior Production Project</u>, or a <u>Senior Directing Project</u>.

Step 2: Students approved for Senior Directing Projects and stand alone Senior Acting Projects will need to complete a <u>Studio Production application</u>. Senior Design Projects, Senior Production Projects, and Main Season Senior Acting Projects will be assigned by the faculty (in consultation with the approved students).

All projects will include written work (analysis, journals, assessment) and practical work (e.g., designers will complete renderings/models, directors and stage managers will create prompt books). All students will participate in producing activities, conduct technical work, and attend production meetings. Each student will work with his/her faculty supervisor to determine responsibilities and due-dates.
